

No. 5 HOW TO ... ACCESS ATHENS RESOURCES

1. The ATHENS portal gives you access to many databases from a central point, with one username and password. It is accessible either on- or off-campus.
2. From the Internet, log on to www.openathens.net

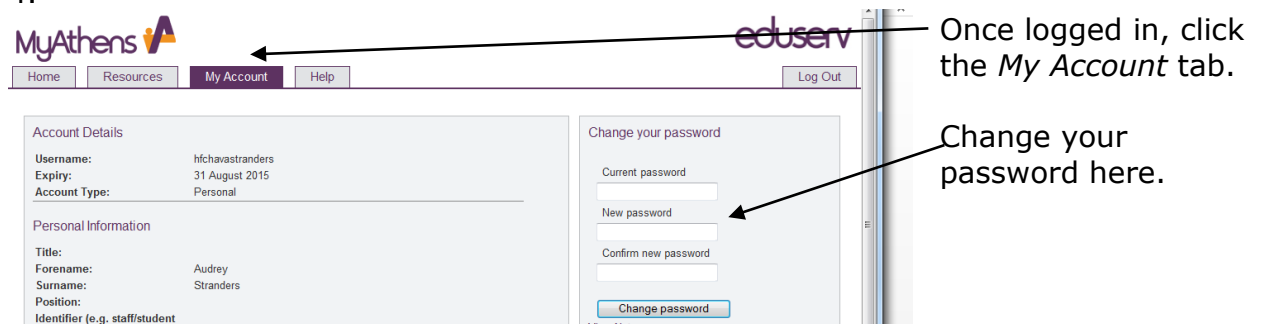

Select *Login to MyAthens*

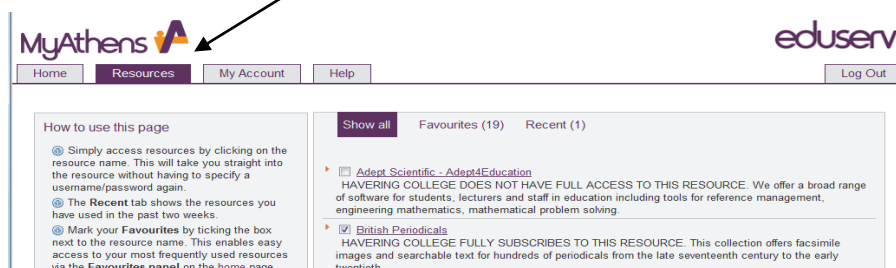

3. You will have been sent an email to your *College email* address with login details. If you cannot find this, in the username box type your college email ID (**950000...@havering-college.ac.uk**) and in the password box type **yourpassword**. If a generic password has been setup for you, this will be *Havering1*.

NB. If you cannot get logged on, contact the LRC or email librarian@havering-college.ac.uk and we will send you your login details.

4.

5. Now click on the *Resources* tab and you have access to all the resources listed.

Resources will change from time to time. Some may be full-text access, others only abstracts, but this will be made clear in the notes.

Guides to the contents of the various databases are given in other 'How to...' leaflets.

You can select your **favourites**, by ticking the box to the left of the resource title. These will then appear on your **Home** tab in a *Favourite Resources* panel.

6. Current full subscriptions are listed below.
